## Henry's Small Game Rifle Hits the Mark for Editor's Choice Award

**RICE LAKE, Wis., November 7, 2025** — Henry Repeating Arms, one of the country's leading firearms manufacturers, is proud to announce that the Henry [Small Game Rifle](#) has been selected as the Editor's Choice for Best Rimfire Rifle by *Petersen's Hunting*.

In the article, editors praised the rifle's premium feature set, stating, "The Henry Small Game lever-action rimfire is available in either carbine (17-inch barrel) or rifle (20-inch barrel) versions, and both models come with octagonal steel barrels and Skinner ghost ring sights. Both the carbine and rifle versions are chambered in either .22 WMR or .22 LR, and the latter is capable of firing .22 Long and .22 Short ammunition as well."

The Small Game Rifle and Carbine add field-ready features to Henry's most time-tested rimfire platform and America's most popular rimfire lever action, the H001 Classic Lever Action .22. Upfitted with a factory-installed Skinner® peep sight, the rifle offers the quick, intuitive target acquisition needed when hunting small, agile animals like squirrels and rabbits.

This honor follows several recent awards for Henry Repeating Arms, including the *Guns & Ammo* 2025 Rifle of the Year award for the [Lever Action Supreme Rifle](#) and the NASGW-POMA Caliber Award for Best New Rifle for the Field Ethos [SPD HUSH Series](#). Together, these recognitions reflect Henry's ongoing commitment to innovation, quality, and delivering products that provide value to its customers.

"Our primary goal is to make firearms that people love to shoot and are proud to own," said Anthony Imperato, Founder and CEO of Henry Repeating Arms. "The Small Game Rifle is a perfect example. It's simple, effective, affordable, and the buttery smooth action makes it a joy to use. We're grateful to the editors for recognizing what makes this item special."
